## **Volunteers needed to help with County Waste Department backyard composting program**

The Riverside County Department of Waste Resources is seeking volunteers to help with the Riverside County Backyard Composting Program. Volunteer "Master Composters" will attend a training course for four Saturdays, and will then donate 40 hours back to the program. Volunteers are needed for staffing Saturday morning workshops, classroom presentations, and community group presentations and outreach. It's a great way to learn more about recycling organic resources and then share that knowledge through program presentations. The training class will be on Saturdays, from 7:00 A.M. to 2:30 P.M., starting August 1 through August 22, 2015. Books and study materials will be provided by the department. Limited seats are available. Candidates must apply online at: <http://www.rcwaste.org/opencms/recycling/mastercomposter.html>
