

Annual Report Summary: **Riverside-Unincorporated (2008)**

This Annual Report Summary is an official record of your CalRecycle Electronic Annual Report submission, except for your Venue/Event section information, which is contained in a separate report. You may reach that section from the Electronic Annual Report's left navigation bar.

Before submitting your report to CalRecycle, please take the time to review everything on this page to confirm it is complete and correct. If you need to modify some information, close this window to return to the Electronic Annual Report to make your corrections. Then, preview the report again.

Summary Generated On: Friday, August 01, 2014, 10:25:44 AM

Summary

Jurisdiction: Riverside-Unincorporated
Report Year Filed: 2008
Report Status: Supervisor Reviewed

Submitted Information

Date Report Submitted: Friday, July 31, 2009

Disposal Rate Calculation

Definition of Terms

Reporting-Year Disposal Amount (tons) – defaults to the total tonnage disposed in the Reporting-Year by a jurisdiction as reported to the Disposal Reporting System (DRS). Disposal contains all jurisdiction waste that was disposed in CA landfills, transformation facilities, and exported out-of-state. Any changes will require you submit a Reporting Year Disposal Modification Certification Sheet (PDF). See User's Guide or contact LAMD representative if uncertain.

Disposal Reduction Credits - the EAR calculator will subtract these credits from your requested total in the Reporting-Year Disposal Amount field. Requesting credits will require you submit a Reporting Year Disposal Modification Certification Sheet (PDF). Descriptions of these credits can be found on that sheet. See EAR User's Guide or contact LAMD representative if uncertain.

Reporting-Year Transformation Waste (tons) – defaults to the total tonnage of waste sent in the Reporting-Year by a jurisdiction to a CalRecycle-permitted transformation facility as reported to the Disposal Reporting System (DRS). Transformation is factored into the Per Capita rate only, and is not deductible. To eliminate the Per Capita credit for transformation tonnage, change the Reporting-Year Transformation Waste (tons) number to 0.00.

Reporting-Year Population – January 1st estimate of the number of inhabitants occupying a jurisdiction in the Reporting-Year as prepared by the California Department of Finance (DOF)

Reporting-Year Employment – the estimate of the annual average number of employees by jurisdiction in the Reporting-Year as prepared by the California Employment Development Department (EDD).

Additional Definitions - for additional definitions and/or acronym descriptions, see the LGCentral Glossary.

Annual Report Summary: [Riverside-Unincorporated \(2008\)](#)

Reporting-Year Disposal Amount (tons): 557,180.21

Disposal Reduction Credits (Reported):

Disaster Waste (tons):	981.00
Medical Waste (tons):	0.00
Regional Diversion Facility Residual Waste (tons):	0.00
C & D Waste (tons):	0.00
Class II Waste (tons):	0.00
Out of State Export (Diverted) (tons):	0.00
Other Disposal Amount (tons):	0.00
	<u>36577.00</u>

Total Disposal Reduction Credit Amount (tons): 37558.00

Total Adjusted Reporting-Year Disposal Amount (tons): 519,622.21

Reporting-Year Transformation Waste (tons): 28.60

Reporting Entity	Quarter	Destination Facility	Transformation Ton
Stanislaus	2	Covanta Stanislaus, Inc.	0.01
Stanislaus	1	Commerce Refuse-To-Energy Facility	9.00
Stanislaus	2	Commerce Refuse-To-Energy Facility	8.04
Stanislaus	3	Commerce Refuse-To-Energy Facility	9.24
Stanislaus	4	Commerce Refuse-To-Energy Facility	2.31

Reporting-Year Population: 553,461

Reporting-Year Employment: 106,161

Reporting-Year Calculation Results (Per Capita)

	Population		Employment	
	Target	Annual	Target	Annual
Disposal Rate without Transformation (pounds/person/day):		5.1		26.8
Transformation Rate (pounds/person/day):	1.2	0.0	6.5	0.0
The Calculated Disposal Rate (pounds/person/day)	6.2	5.1	32.5	26.8

Calculation Factors

If any boxes are checked, please complete, and sign the [Reporting Year Disposal Modification Certification Sheet](#) and mail, e-mail or FAX to CalRecycle within 7 business days of submitting your report. If you are only claiming report-year disposal deductions for waste transported to a certified Transformation facility, you do not need to fill out the certification request.

Although you will be able to submit your electronic Annual Report without completing this sheet, your Annual Report will not be deemed complete until this sheet is completed and received by CalRecycle. Contact your [LAMD representative](#) for details.

Deductions to DRS disposal tonnage

Questions and Responses

Rural Petition for Reduction in Requirements

Rural Petition For Reduction

1. **Question:**

Was your jurisdiction granted a rural Petition for Reduction by the CIWMB?
For more information regarding Rural Petition For Reduction, go to [Rural Solid Waste Diversion Home Page](#).

Response:

No.

Newly Incorporated Cities

New City

1. **Question:**

Since the date of your last Annual Report, are there any newly incorporated cities within your county/regional agency?

Response:

Yes.

Disposal Rate Accuracy

Disposal Rate Accuracy

1. **Question:**

Are there extenuating circumstances pertaining to your jurisdiction's disposal rate that the Board should consider, as authorized by the [Public Resources Code Section 41821 \(c\)](#)? If you wish to attach additional information to your annual report, please send those items or electronic files to your LAMD representative; include a brief description of those files below. If so, please use the space below to tell the Board.

Response:

No.

Planning Documents Assessment

Source Reduction and Recycling Element (SRRE)

Annual Report Summary: **Riverside-Unincorporated (2008)**

1. Question:

Does the SRRE need to be revised?

Response:

No. All updates are detailed in the Annual Report program notes.

Household Hazardous Waste Element (HHWE)

2. Question:

Does the HHWE need to be revised?

Response:

No. All updates are detailed in the Annual Report program notes. The Riverside County Waste Management Department (RCWMD) closed the Pedley PHHWCF and opened the Agua Mansa PHHWCF which was partially funded by a CIWMB HHW Discretionary grant. As part of this funding, the City of Lake Elsinore PHHWCF footprint was expanded to collect electronic waste and to add more contained chemical storage. Lastly, the City of Palm Springs and the RCWMD partnered to build a new PHHWCF that opened July 11, 2009.

Non-Disposal Facility Element (NDFE)

3. Question:

Describe below any changes in the use of [nondisposal facilities](#), both existing and planned (e.g., is the jurisdiction using a different facility within or outside of the jurisdiction, has a facility closed, is a new one being planned).

Response:

NDFE Amd. 2008-1 for MacTec Recycling Facility (formerly, Rios Recycling) was approved through Executive Director Delegated Action (Resolution 2008-177) on 11/13/2008.

Non-Disposal Facility Element (NDFE)

4. Question:

Are there currently any nondisposal facilities that require a solid waste facility permit located (or planned to be sited) in your jurisdiction that are not identified in your NDFE?

Response:

No. All updates are detailed in the Annual Report program notes.

Summary Plan Assessment

Summary Plan

1. Question:

Does the Summary Plan need to be revised?

Response:

No.

Siting Element Assessment

Total County or Agency Wide Disposal Capacity

1. **Question:**

Based on the best available estimates of current and future disposal, how many years of disposal capacity does your county or regional agency have?

Response:

20

Total County or Agency Wide Disposal Capacity

2. **Question:**

If you do not currently have 15 years of disposal capacity, describe your strategy for obtaining 15 years of capacity.

Response:

Not Applicable

Siting Element Adequacy

3. **Question:**

Does the Siting Element need to be revised? The Siting Element will need to be revised if you have less than 15 years disposal capacity and have not described a strategy for obtaining 15 years disposal capacity.

Response:

No.

Areas of Concern / Conditional Approvals

Areas of concern

1. **Question:**

Did the Board require your jurisdiction to address any areas of concern when determining the adequacy of your solid waste planning documents, or any of their elements?

Response:

No.

Conditional approvals

2. **Question:**

Did the Board give conditional approval to any of your solid waste planning documents, or any of their elements?

Response:

No.

Additional Information

Additional Information

Annual Report Summary: **Riverside-Unincorporated (2008)**

1. Question:

Is there anything else you would like to tell the CIWMB about unique or innovative efforts by your jurisdiction to reduce waste generation and increase diversion, about your jurisdiction's public education efforts, or about specific obstacles to reaching your jurisdiction's diversion goal? If you wish to attach additional information to your annual report, please send those items or electronic files to your LAMD representative and include a brief description of those files below.

Response:

Yes. In July and October, the residents in Wildomar and Menifee areas incorporated. Due to the Menifee incorporation, one of the County's green waste recyclers, BP John, is now located in the City of Menifee. In December of 2008, Synagro, a biosolids composting facility, officially closed. Biosolids from Eastern Municipal Water District (EMWD), which would have been transported to Synagro, were instead transported to the Otay Landfill (San Diego) for disposal in the years 2007 and 2008. EMWD is working with a contractor to transport the material for land application. However, the additional disposal tonnage from the EMWD on unincorporated Riverside County has impacted our Per Capita Disposed rate. The unincorporated area of Riverside County is taking this tonnage entirely when, the majority of EMWD Reclamation Facilities are located within city jurisdictions rather than the unincorporated portion of the County.

SRRE and HHWE Diversion Programs

1000-SR-XGC (Xeriscaping/Grasscycling)

Current Status: SO - Selected and Ongoing	Program Start Year: 1993	Existed before 1990: Yes
	Report Year Diversion Tons: 0	Selected in SRRE: Yes
		Owned or Operated: Yes

Selected Program Details:

Grasscycling | Xeriscaping

Jurisdiction Notes:

AR 2008 - Riverside County Waste Management Department (RCWMD) continues to provide public outreach materials to the public, attends numerous community events and provides a wide array of promotional materials. The RCWMD developed a comprehensive Recycling Guide made available to residents and businesses. The guide promotes grasscycling in the Source Reduction sections. Grasscycling methods continue to be taught at the Backyard Composting workshops. All County parks (hundreds of acres) are mowed using low deck grasscycling mowers and clippings are left on the turf. The RCWMD Planning Staff continues to recommend conditions of approval on development projects within the County that promote recycling of green waste and xeriscaping. County Land Use Ordinance 348 Article XIXf Water Efficient Landscaping (Ordinance 859) has been updated and continues to promote water efficient landscaping, requiring the use of mulch and compost in landscaping. The Ordinance was adopted on 12/19/2006 and became effective 1/8/2007. The California State Association of Counties Challenge Awards honored Riverside County with Honorable Mention for the Riverside County Water Efficient Landscape Program. The County developed and adopted a Water-Efficient Landscape Ordinance in collaboration with a Water Task Force to ensure that landscaping designs use plant materials that are not incongruous with the climate and require exorbitant amounts of water to sustain. This definitive policy action directs the way new development designs landscaping plans so as to reduce annual water use. The guide offers developers and landscapers methods and guidelines on water-efficient irrigation, designs and a list of attractive drought-tolerant plants. Riverside County has taken a lead conservation role in the state by launching the objectives of the ordinance well in advance of the State's Draft Model Water Efficient Landscape Ordinance and implemented them 14 months prior to the bill's release.

1010-SR-BCM (Backyard and On-Site Composting/Mulching)

Current Status: SO - Selected and Ongoing	Program Start Year: 1992	Existed before 1990: Yes
	Report Year Diversion Tons: 0	Selected in SRRE: Yes
		Owned or Operated: Yes

Annual Report Summary: Riverside-Unincorporated (2008)**Jurisdiction Notes:**

AR 2008 - RCWMD continues to promote this countywide program through its website, hotline, ads, brochures (at events and through direct mail to most County residents) and flyers distributed at community events in the County. In 2008, 22 Backyard Composting (BYC) workshops, vermicomposting and composting presentations were made throughout the County utilizing Master Composter volunteers and County staff. 838 Master Composter volunteer hours were contributed to the program. 709 residents attended workshops, and 406 compost bins were sold. In addition to the BYC workshops the RCWMD and master composters conducted a Composting/Vermicomposting presentation at the Eastern Municipal Water District. This is a presentation that attracts a large group and provides information to interested residents. The Recycling Guide addresses BYC and use of mulch. County Parks District contracts for plant trimming services and requires trimmings to be chipped and used for mulch on park grounds. County Flood Control uses mulch along the Santa Ana River for erosion control and as a weed preventive. The RCWMD used 3,469 tons of mulch for erosion control at active and inactive landfill sites. The RCWMD Planning staff continues to recommend conditions of approval on development projects within the County that promote the use of mulch and/or compost in development and maintenance of landscaped areas.

1020-SR-BWR (Business Waste Reduction Program)

Current Status: SO - Selected and Ongoing	Program Start Year: 1992	Existed before 1990: No
	Report Year Diversion Tons: 0	Selected in SRRE: Yes
		Owned or Operated: Yes

Jurisdiction Notes:

AR 2008 - Technical assistance continues to be available to businesses that inquire about waste reduction methods. The RCWMD continues to support and use the CalMax Directory for business wastes, both "wanted" and "available" materials. Landscapers coming to landfills are encouraged to use greenwaste processors. The RCWMD Recycling Guide addresses business source reduction. The RCWMD began mailing the Recycling Guide, CESQG brochure and CalMax information to new businesses whose name showed up on the fictitious business list. In 2006/2007 the RCWMD began tracking the names of residents and what information they requested. For 2008, 76,456 pieces of educational material were mailed to residents.

1030-SR-PMT (Procurement)

Current Status: SO - Selected and Ongoing	Program Start Year: 1990	Existed before 1990: Yes
	Report Year Diversion Tons: 0	Selected in SRRE: Yes
		Owned or Operated: Yes

Jurisdiction Notes:

AR 2008 - The County continues to purchase a variety of recycled content office products in accordance with purchasing policies, and it is looking for additional recycled content products to purchase in place of virgin material products. Materials purchased by RCWMD for used tire recycling promotion, used oil recycling promotion, and beverage container recycling promotion were made from recycled content, in accordance with CIWMB and DOC grant requirements. Facilities Management continues to use environmentally friendly "green" chemicals, ergonomic tools and cutting-edge cleaning technology. The County handles the re-utilization of computer related assets through its Surplus/Salvage Office, a part of the Purchasing Department. Used computers and peripheral equipment are turned in to the Salvage office and the County makes every attempt to re-distribute working items to other County departments or County sponsored organizations, including school districts and non-profit agencies associated with the County. To date, this program has been highly successful. Non-serviceable assets are sent to auction with the proceeds returned to the County. On November 25, 2008, the Riverside County Board of Supervisors approved an amendment to the Board of Supervisors Policy D-2: Use and Purchase of Low or Zero Emissions County Vehicles. This policy requires that whenever practical the use of low or zero emissions vehicles to be the "first choice" of daily, monthly, or long term lease arrangements. Additionally, in order to improve air quality in Riverside County and to meet local and federal air quality regulations, this policy recommends departments/agencies/districts consider the purchase of low or zero emissions vehicles as the "first choice" for fleet vehicle purchases in lieu of gasoline or diesel powered vehicles.

1040-SR-SCH (School Source Reduction Programs)

Current Status: SO - Selected and Ongoing	Program Start Year: 1993	Existed before 1990: No
	Report Year Diversion Tons: 0	Selected in SRRE: Yes
		Owned or Operated: Yes

Annual Report Summary: Riverside-Unincorporated (2008)**Jurisdiction Notes:**

AR 2008 - The RCWMD continues supporting school source reduction efforts through presentations, compost bin donations, and school garden assistance. Recycling Specialists continue to provide technical assistance for schools inquiring about recycling resources available to them. Presentations for recycling, composting, and vermicomposting are available to classrooms upon request. In 2008, the RCWMD donated two (2) Biostack Composting Bins to public schools and Non-Profit agencies within Riverside County.

1050-SR-GOV (Government Source Reduction Programs)

Current Status: SO - Selected and Ongoing	Program Start Year: 1992	Existed before 1990: No
	Report Year Diversion Tons: 0	Selected in SRRE: Yes
		Owned or Operated: Yes

Jurisdiction Notes:

AR 2008 - The County continues to source reduce within its offices. The RCWMD and other County departments continue to file and store County documents and to conduct all purchasing and human resource activities electronically rather than using print copies. Staff have access to this software and archives. RCWMD continues to serve as a model for many source reduction efforts that are adopted countywide. The Recycling Guide is available in electronic format online. The California State Association of Counties Challenge Awards honored Riverside County with Honorable Mention for the Trash to Treasure: Helping Communities Help Themselves. This program is a demolition grant program to reduce physical blight in less affluent redevelopment neighborhoods by demolishing substandard structures, cleaning up properties, and remedying trash accumulation violations in coordination with County Code Enforcement. The funding covers up to \$75,000 per redevelopment project area parcel, with no out-of-pocket costs to the property owner. During the October 2008 budget talks, County Supervisor Stone met with the County Executive Office as well as the various Department heads to come up with ways to save money as well as resources, the Safeguard County of Riverside Against Preventable Expenses (SCRAPE) program was formed. SCRAPE looks specifically at utility savings and the frequency of services for County Departments as well as eliminating government waste. This item was approved by the Board of Supervisors at the February 3, 2009 hearing.

1060-SR-MTE (Material Exchange, Thrift Shops)

Current Status: SO - Selected and Ongoing	Program Start Year: 1991	Existed before 1990: Yes
	Report Year Diversion Tons: 0	Selected in SRRE: Yes
		Owned or Operated: Yes

Jurisdiction Notes:

AR 2008 - For this report year, the RCWMD continues to encourage residents and businesses to recycle reuseable materials in good working condition through yard sales, churches, non-profits charities thrift and reuse stores. RCWMD provides regional CalMax Exchange links from its website to the CalMax database.

2000-RC-CRB (Residential Curbside)

Current Status: SO - Selected and Ongoing	Program Start Year: 1991	Existed before 1990: No
	Report Year Diversion Tons: 18431.92	Selected in SRRE: Yes
		Owned or Operated: No

Selected Program Details:

Single-family residences | Commingled (Single-stream) | Glass | Metal | Newspaper | Plastic 1-2 | Plastic 3-7 | Uncoated corrugated cardboard and paper bags

Jurisdiction Notes:

AR 2008 - The County franchise hauler system continues to provide refuse collection service in the Unincorporated County. Hauler programs diverted 18,431.92 tons of recyclable material in 2008. The County covers 7,000 square miles with a wide variety of service offered in 13 franchise hauler areas. In the urban areas, the County has mandatory trash collection service. However, in some of the outlying pockets of population, residents self-haul to either a County landfill or a transfer station. The landfills and some transfer stations include recycling opportunities for the residents.

2010-RC-DRP (Residential Drop-Off)

Current Status: SO - Selected and Ongoing	Program Start Year: 1990	Existed before 1990: Yes
	Report Year Diversion Tons: 0	Selected in SRRE: Yes
		Owned or Operated: No

Annual Report Summary: Riverside-Unincorporated (2008)**Jurisdiction Notes:**

AR 2008 - The County, through contract operators, continues to provide three rural transfer collection centers with bins for recyclables located in Idyllwild, Pinon Flats and Anza. The use of these collection locations are promoted to local residents who self-haul their solid waste through various presentations and promotional materials.

2020-RC-BYB (Residential Buy-Back)

Current Status: SO - Selected and Ongoing	Program Start Year: 1987	Existed before 1990: Yes
	Report Year Diversion Tons: 0	Selected in SRRE: Yes
		Owned or Operated: No

Jurisdiction Notes:

AR 2008 - The RCWMD continues to promote recycling centers throughout the County. The RCWMD maintains a database of recyclers and makes the list available at educational events and fairs, through mailings, the RCWMD's website, and provides updates to the staff of Earth's 911 phone service/website. This information is also available in the Recycling Guide online.

2030-RC-OSP (Commercial On-Site Pickup)

Current Status: SO - Selected and Ongoing	Program Start Year: 1991	Existed before 1990: No
	Report Year Diversion Tons: 3095.67	Selected in SRRE: Yes
		Owned or Operated: No

Selected Program Details:

Commingled (Single-stream) | Glass | Metal | Miscellaneous paper (includes phone books, catalogs, magazines and other paper) | Newspaper | Office paper (white & colored ledger, computer paper, other office paper) | Plastic 1-2 | Uncoated corrugated cardboard and paper bags

Jurisdiction Notes:

AR 2008 - Recycling collection services are still offered within the franchise agreements in most service areas of the County. 2,126.40 tons of recyclables were collected from commercial sources and 969.27 tons from industrial sources. The County covers 7,000 square miles with a wide variety of service offered within 13 franchise hauler areas. In some urban areas, the County has mandatory trash service. However, in some of the rural areas, businesses self-haul to either a County landfill or transfer station. These facilities include recycling opportunities for businesses.

2060-RC-GOV (Government Recycling Programs)

Current Status: SO - Selected and Ongoing	Program Start Year: 1990	Existed before 1990: Yes
	Report Year Diversion Tons: 0	Selected in SRRE: Yes
		Owned or Operated: Yes

Jurisdiction Notes:

AR 2008 - County offices continue to recycle office paper, cardboard and telephone books. Additionally, scrap metal and tires generated through vehicle repairs are recycled through Fleet Services. Pallets and toner cartridges are recycled in Supply Services. County Parks District grasscycles all park turf areas and grinds woody waste into mulch for use at County parks. County Surplus (Purchasing) auctions usable items at public auctions or redistributes items to County departments for continued County use. RCWMD has comingled recycling service at its offices and the Waste Management Employee Group (WMEG) collects bottles and cans for recycling. The County Transportation and Land Management Agency recycles aluminum signs, stencils and poles, and ferrous scrap from road yards and thousands of tons of recycled asphalt from locations throughout the County.

2070-RC-SNL (Special Collection Seasonal (regular))

Current Status: SO - Selected and Ongoing	Program Start Year: 1991	Existed before 1990: No
	Report Year Diversion Tons: 0	Selected in SRRE: Yes
		Owned or Operated: No

Jurisdiction Notes:

AR 2008 - The RCWMD collects bottles and cans for recycling. continues to promote seasonal recycling activities, such as Christmas tree recycling. Public information is available on the RCWMD's website and Recycling Hotline. Christmas trees are collected at Badlands and Lamb Canyon landfills for residents. Although these programs are effective, tonnage information is difficult to gather due to residents using their curbside containers for comingled recycling.

Annual Report Summary: Riverside-Unincorporated (2008)

2080-RC-SPE (Special Collection Events)

Current Status: SO - Selected and Ongoing	Program Start Year: 1992	Existed before 1990: No
	Report Year Diversion Tons: 0	Selected in SRRE: Yes
		Owned or Operated: Yes

Jurisdiction Notes:

AR 2008 - RCWMD continues to work with community groups to promote community/neighborhood cleanups and to promote the diversion of recyclables from landfills. These events include HHW events and special solid waste cleanups. Each city or community receives the opportunity for gate fee waivers for community solid waste clean up events twice per year per Board of Supervisors Resolutions 80-119 & 84-453. Additionally, the RCWMD's Illegal Disposal Clean-Up Program (IDCUP Program) continued to cleanup illegally dumped solid waste on the County brown roads. In 2008, the crews picked up 800 tons of trash. Tires and metallics collected through these programs are diverted for recycling. In mid 2005, the County formed the Community Improvement Specialist section, which is part of Code Enforcement Department. The Community Improvement Specialists attend meetings within the Community and disseminate recycling information. They inform the residents of upcoming solid waste clean-up events and opportunities to recycle. In 2008, 34 Community Clean-ups events were organized and held within the County and collected 1,106 tons of trash from these events.

3000-CM-RCG (Residential Curbside Greenwaste Collection)

Current Status: SO - Selected and Ongoing	Program Start Year: 2000	Existed before 1990: No
	Report Year Diversion Tons: 29784.31	Selected in SRRE: Yes
		Owned or Operated: No

Selected Program Details:

Single-Family

Jurisdiction Notes:

AR 2008 - County Franchise haulers collected 29,784.31 tons of curbside greenwaste. The County covers 7,000 square miles with a wide variety of service offered by 13 franchise haulers. Mandatory curbside greenwaste collection is not available in all unincorporated franchise areas. The residents self-haul greenwaste to either a County Landfill or a Transfer Station. Some of these facilities include greenwaste recycling opportunities for residents.

3010-CM-RSG (Residential Self-haul Greenwaste)

Current Status: SO - Selected and Ongoing	Program Start Year: 1993	Existed before 1990: No
	Report Year Diversion Tons: 0	Selected in SRRE: Yes
		Owned or Operated: No

Jurisdiction Notes:

AR 2008 - The RCWMD continues to encourage residents to recycle their green waste by providing education materials listing green waste recycling benefits and giving them green waste recycling options. The RCWMD promotes the use of two (2) compost facilities located within the County and the fourteen (14) green and woody waste processors to residents. These lists are provided at the landfill gates when a resident arrives with a load of green waste and also is provided on the RCWMD's website. A \$10/ton greenwaste surcharge at landfills is still in effect as an economic disincentive to landfilling greenwaste.

3030-CM-CSG (Commercial Self-Haul Greenwaste)

Current Status: SO - Selected and Ongoing	Program Start Year: 1993	Existed before 1990: No
	Report Year Diversion Tons: 0	Selected in SRRE: Yes
		Owned or Operated: No

Jurisdiction Notes:

AR 2008 - The RCWMD continues to encourage businesses to recycle their green waste by providing education materials listing green waste recycling benefits and other green waste recycling facilities. These lists are provided at the landfill gates when a business arrives with a load of green waste and also is provided on the RCWMD's website. A \$10/ton greenwaste surcharge at landfills is still in effect as an economic disincentive to landfilling greenwaste. The County promotes the use of two (2) compost facilities located within the County and the fourteen (14) green and woody waste processors to businesses and residents.

3040-CM-FWC (Food Waste Composting)

Annual Report Summary: Riverside-Unincorporated (2008)

Current Status: AO - Alternative and Ongoing	Program Start Year: 1999	Existed before 1990: No
	Report Year Diversion Tons: 0	Selected in SRRE: Yes
		Owned or Operated: No
Jurisdiction Notes: AR 2008 - The RCWMD continues to encourage residents to recycle their food waste by providing education materials on its website. The RCWMD also offers vermicomposting information to residents and schools through its Backyard Composting program. Riverside County has one compost facility that accepts commercial food waste (California Biomass) located in the Coachella Valley. The Coachella Valley Compost Facility also accepts commercial grease trap waste at their composting facility.		
3050-CM-SCH (School Composting Programs)		
Current Status: AO - Alternative and Ongoing	Program Start Year: 1998	Existed before 1990: No
	Report Year Diversion Tons: 0	Selected in SRRE: Yes
		Owned or Operated: Yes
Jurisdiction Notes: AR 2008 - RCWMD staff continue to provide composting and vermicomposting presentations to schools. Free compost bins are donated to local schools that wish to start a sustainable recycling program in the classroom. 2 bins were donated to schools in 2008. Master Composters give a presentation as the bins are being set-up. Six (6) school presentations were completed in 2008. Vermicomposting information is included.		
3060-CM-GOV (Government Composting Programs)		
Current Status: AO - Alternative and Ongoing	Program Start Year: 1999	Existed before 1990: No
	Report Year Diversion Tons: 0	Selected in SRRE: Yes
		Owned or Operated: No
Jurisdiction Notes: AR 2008 - The Local Task Force (LTF) continues to meet and support the efforts of Green Waste Processors operating in Riverside County. Legislative review by staff is presented to members at LTF meetings to encourage member support of processing efforts to divert green waste from the landfills. In 2005 the LTF formed a Greenwaste Subcommittee to analyze the Green and Woody Waste Status in the County. The Report researched the facilities that accept green and woody waste and the practices of other businesses that handle green and woody waste, such as golf courses, schools and parks. During 2006, the RCWMD updated the information and presented the material to the LTF for further comment. The Coachella Valley Association of Governments (CVAG) has also formed a Greenwaste Subcommittee to look at greenwaste issues specific to the Coachella Valley. The RCWMD proposed and implemented a landfill surcharge of \$10/ton on green waste used as Alternative Daily Cover in order to stimulate markets for this material. This surcharge, while proposed in 2008, became effective July 1, 2009.		
4000-SP-ASH (Ash)		
Current Status: DE - Dropped in an earlier year	Program Start Year: 1993	Existed before 1990: No
	Report Year Diversion Tons: 0	Selected in SRRE: Yes
		Owned or Operated: No
Jurisdiction Notes: AR 2008 - Dropped in previous year.		
4010-SP-SLG (Sludge (sewage/industrial))		
Current Status: SO - Selected and Ongoing	Program Start Year: 1991	Existed before 1990: Yes
	Report Year Diversion Tons: 0	Selected in SRRE: Yes
		Owned or Operated: No

Annual Report Summary: Riverside-Unincorporated (2008)

Jurisdiction Notes:

AR 2008 - Land application of Class B sewage sludge was prohibited per County Ordinance 812. On February 18, 2004, the Riverside County Board of Supervisors adopted Ordinance 830 which now regulates the land application of Class A sewage sludge for agricultural activities. Synagro Regional Composting Facility was the only sludge/biosolids composting facility located in the County. A Settlement Agreement reached by Synagro and the County in February 2004 previously required Synagro to cease operations by December 2008. Due to its wind down period, Synagro discontinued acceptance of biosolids in fall of 2008. This, and closure of Nursery Products Composting facility in San Bernardino County, has resulted in thousands of tons of biosolids being landfilled in San Diego County from Eastern Municipal Water District. Planned recycling of biosolids by Eastern Municipal Water District was to begin in January 2009 at Tule Ranch in Arizona.

4020-SP-TRS (Tires)

Current Status: SO - Selected and Ongoing	Program Start Year: 1992	Existed before 1990: No
	Report Year Diversion Tons: 522	Selected in SRRE: Yes
		Owned or Operated: Yes

Jurisdiction Notes:

AR 2008 - The RCWMD continued to collect tires for a fee at three landfills: Badlands, Lamb Canyon and Blythe. The tires are source-separated, and removed from the landfill to an acceptable disposal or recycling locations (522.00 tons of tires were collected at landfills). The County was awarded a Tire Amnesty Grant with events to be conducted by the Community Improvement Specialists within Code Enforcement. In 2008, eleven (11) events were held within Riverside County. Tires are also collected and subsequently recycled through Illegal Dumping Clean Up Program (IDCUP). The IDCUP tonnage is combined with landfill tire tonnage. Riverside County is also a recipient of a Tire Enforcement Grant which is administered by the Code Enforcement Department. To date, 50 Notices of Violation have been issued and more than 20 locations have come into compliance with state requirements. Five violators that failed to comply were referred to the State for further enforcement action. In addition to enforcement, education plays a vital part in the program. Several training sessions benefited the tire haulers in Riverside County, who were trained on the proper way of documenting and manifesting waste tires.

4030-SP-WHG (White Goods)

Current Status: SO - Selected and Ongoing	Program Start Year: 1992	Existed before 1990: Yes
	Report Year Diversion Tons: 3779.61	Selected in SRRE: Yes
		Owned or Operated: No

Jurisdiction Notes:

AR 2008 - The RCWMD continues to accept metallic discards for recycling. White Goods contain wastes that require special handling such as freon, mercury switches, and oil, which are removed by certified in-house staff. Hazardous materials are then shipped offsite for recycling or incineration. Metallics vendors contracted by the RCWMD recycle white goods and other metallics diverted at the landfills. Plastic components of disassembled appliances were shipped to a plastics recycler beginning January 2006. White good are tracked as scrap metal. County landfills diverted 1,493 tons of metal in 2008. The \$10 surcharge was deleted in September 2002 to encourage recycling of white goods at the landfills. Franchise haulers in the Unincorporated County diverted 3,779.60 tons of white goods.

4040-SP-SCM (Scrap Metal)

Current Status: SO - Selected and Ongoing	Program Start Year: 1991	Existed before 1990: Yes
	Report Year Diversion Tons: 1493	Selected in SRRE: Yes
		Owned or Operated: Yes

Jurisdiction Notes:

AR 2008 - RCWMD diverts all self-hauled metallic material from landfilling (1,493 tons in 2008). All hazardous materials are removed by trained and certified RCWMD staff prior to crushing or transporting. Recycled tonnage includes the following separated categories: white goods, tin, steel, copper, aluminum, brass, stainless steel, insulated wire, circuit boards, electric motors, and drained Freon compressors.

4050-SP-WDW (Wood Waste)

Current Status: SO - Selected and Ongoing	Program Start Year: 1991	Existed before 1990: Yes
	Report Year Diversion Tons: 0	Selected in SRRE: Yes
		Owned or Operated: No

Annual Report Summary: **Riverside-Unincorporated (2008)**

Jurisdiction Notes:

AR 2008 - Wood waste continues to be diverted to green/woody waste recyclers (for processing into mulch and fuel) and to Colmac, a biomass-to-energy facility in the Coachella Valley. 116,374.28 tons of wood waste was processed into fuel from all Riverside County jurisdictions. The landfill surcharge disincentive of \$10/ton is still in effect to discourage the land filling of woody waste and green waste. A grinding facility in Idyllwild was established to manage the slash wood waste generated from tree cutting operations due to a Bark Beetle infestation. A disaster proclamation was made in January 2003 and continues to be renewed by the County Board of Supervisors. The RCWMD continues to promote green and woody waste recyclers to residents and businesses.

4060-SP-CAR (Concrete/Asphalt/Rubble)

Current Status: AO - Alternative and Ongoing	Program Start Year: 1998	Existed before 1990: No
	Report Year Diversion Tons: 624	Selected in SRRE: Yes
		Owned or Operated: Yes

Selected Program Details:

Asphalt Paving | Brick | Concrete/cement | Gypsum Board/drywall | Mixed C + D | Rock, soils and fines

Jurisdiction Notes:

AR 2008 - Program is continuing. The RCWMD promotes C & D recycling facilities in its educational materials and on its website. Since 2000, the County Transportation & Land Management Agency grinds asphalt and reuses the material as road base on County-maintained roads. The RCWMD Landfill system uses crushed asphalt in the metallics collection area and on landfill roads. The RCWMD significantly enhanced the reporting and tracking of construction and demolition (C&D) waste by developing a C&D Waste Diversion Program. This program requires new development projects to complete a Waste Recycling Plan to identify the estimated quantity and location of recycling for C&D waste resulting from the project. A Waste Recycling Report is required upon completion of the project that demonstrates the actual quantity of C&D waste recycled. For 2008 total estimated waste generated was 916 tons and total estimated diverted waste was 624 tons.

4090-SP-RND (Rendering)

Current Status: SO - Selected and Ongoing	Program Start Year: 1991	Existed before 1990: Yes
	Report Year Diversion Tons: 0	Selected in SRRE: Yes
		Owned or Operated: No

Jurisdiction Notes:

AR 2008 - Individual dead animals weighing less than 15 pounds may be disposed in the general waste stream. Small dead animals must be in sealed waste containers or bags prior to arriving at the landfill. Small dead animal carcasses that have died as a result of a disease which is transferable to humans require advanced notice and approval. Residential Farms—Dead animals weighing more than 15 pounds require immediate burial. RCWMD continues to accept large animals from residential farms only at landfills and recommends that facilities that generate large quantities of animal carcasses or carcass waste from meat and poultry industries contract with licensed rendering facilities whenever possible. Community Recycling & Resource Recovery Inc. sent for rendering tons of bone and fat from contract grocery stores in the unincorporated area (tonnage not available).

5000-ED-ELC (Electronic (radio ,TV, web, hotlines))

Current Status: SO - Selected and Ongoing	Program Start Year: 1992	Existed before 1990: No
	Report Year Diversion Tons: 0	Selected in SRRE: Yes
		Owned or Operated: Yes

Jurisdiction Notes:

AR 2008 - The RCWMD has its own website, www.rivcowm.org, to promote recycling and proper waste management. Local recycling centers are listed by material type, landfill hours and locations, recycling events, Household Hazardous Waste information and events, and the Backyard Composting Program are just some of the highlights of the website. The website also provides useful links to other agencies that provide additional valuable recycling information. A supportive effort to update and promote the Earth's 911 website with collection events and current vendor information is an ongoing process. The RCWMD hotline (800-366-SAVE) is promoted on all printed public education literature and has drop-out links to other 24 hour hotlines that offer zip code locators for recycling locations. The hotline (800) 302-2226 promotes the HHW Program.

5010-ED-PRN (Print (brochures, flyers, guides, news articles))

Current Status: SO - Selected and Ongoing	Program Start Year: 1992	Existed before 1990: No
---	--------------------------	-------------------------

Annual Report Summary: **Riverside-Unincorporated (2008)**

	Report Year Diversion Tons: 0	Selected in SRRE: Yes
		Owned or Operated: Yes
Jurisdiction Notes: AR 2008 - Print media is used to promote tire amnesty collection events, composting workshops, Household Hazardous Waste information and events, and public education to increase awareness for used motor oil, and beverage container recycling. Local community newspapers and community program guides are used whenever possible. The countywide direct mail inserts for Earth Day and Pollution Prevention Week continue as a cooperative effort with the Flood Control District Stormwater Program. Inserts promote countywide programs, good environmental stewardship and are distributed to over 700,000 homes throughout the County, twice per year. All printed materials, public education literature, flyers, etc. are printed on recycled content paper when available. Press releases are distributed through the County's Executive Office. Some program literature is available in Spanish.		
5020-ED-OUT (Outreach (tech assistance, presentations, awards, fairs, field trips))		
Current Status: SO - Selected and Ongoing	Program Start Year: 1991	Existed before 1990: Yes
	Report Year Diversion Tons: 0	Selected in SRRE: Yes
		Owned or Operated: Yes
Jurisdiction Notes: AR 2008 - The RCWMD is active in providing speakers for schools and community groups that request presentations on waste issues, recycling, composting and vermicomposting. Public education booths at community events and community fairs promote many SRRE waste diversion programs. Scheduled field trips are welcomed at operating landfills. The RCWMD participated in 64 local community events and distributed public education materials. Staff was also available at the events to answer questions about programs and waste issues. In 2006, the RCWMD began tracking the types of information requested by residents and that practice continues into 2008. In 2008, 76,456 pieces of educational literature were distributed to residents and businesses.		
5030-ED-SCH (Schools (education and curriculum))		
Current Status: SO - Selected and Ongoing	Program Start Year: 1993	Existed before 1990: No
	Report Year Diversion Tons: 0	Selected in SRRE: Yes
		Owned or Operated: Yes
Jurisdiction Notes: AR 2008 - Six (6) schools were visited by RCWMD staff or volunteer Master Composters who presented composting, recycling, and/or environmental programs. The RCWMD continues to provide support for the Western Riverside Council of Governments school assembly programs that emphasize recycling and litter abatement. The RCWMD continues to support the SCRAP Gallery through payment of rent and technical assistance. This program annually takes more than 100,000 pounds of trash and recycles it into art.		
6000-PI-PLB (Product and Landfill Bans)		
Current Status: SO - Selected and Ongoing	Program Start Year: 1991	Existed before 1990: Yes
	Report Year Diversion Tons: 0	Selected in SRRE: Yes
		Owned or Operated: Yes
Jurisdiction Notes: AR 2008 - Program is continuing with TVs and monitors containing Cathode Ray Tubes (CRTs) being diverted through recycling. CPUs and other electronics are now regulated as Consumer Electronic Devices (CEDs) and can no longer be landfilled. Dismantling stations have been set-up on site, where staff remove collected CRTs and CEDs from their housings. This has reduced the additional expense of electronics recycling. Some fees are offset by the sale of data chips and circuit boards that are recovered. In 2008, 347 tons of CRTs were shipped for recycling. Tires are received near the metallics area for diversion and recycling (522.00 tons removed from Lamb Canyon, Badlands and Blythe landfills). The following list of items are also banned from landfills; asbestos and asbestos containing material, batteries, explosive waste and hazardous devices, hazardous waste, sewage (biosolids) sludge, and untreated medical waste.		
6010-PI-EIN (Economic Incentives)		
Current Status: SO - Selected and Ongoing	Program Start Year: 1991	Existed before 1990: Yes
	Report Year Diversion Tons: 0	Selected in SRRE: Yes

Annual Report Summary: Riverside-Unincorporated (2008)

		Owned or Operated: Yes
Selected Program Details: Differential tipping fee Fee waiver		
Jurisdiction Notes: AR 2008 - The greenwaste surcharge of \$10/ton is still in effect at County landfills. The appliance surcharge was removed in 2002 to encourage appliance recycling at the landfills and reduce illegal dumping. To promote the use of tarps on incoming landfill loads which prevents litter and trash from flying out of travelling vehicles, uncovered loads received at landfill gates are surcharged \$10/load. Proposed in 2008 and implemented in 2009, a \$10 per ton surcharge has been placed on greenwaste ADC to incentivize the recycling of this material.		
6020-PI-ORD (Ordinances)		
Current Status: SO - Selected and Ongoing	Program Start Year: 1991	Existed before 1990: Yes
	Report Year Diversion Tons: 0	Selected in SRRE: Yes
		Owned or Operated: Yes
Jurisdiction Notes: AR 2008 - The County continues to require that recycling storage/collection areas are provided within new commercial, industrial and multi-family developments. Xeriscaping is still promoted on new development through the Riverside County Land Use/Zoning Ordinance No. 348. Land application of Class B sewage sludge is prohibited per County Ordinance 812.		
7000-FR-MRF (MRF)		
Current Status: SO - Selected and Ongoing	Program Start Year: 1996	Existed before 1990: No
	Report Year Diversion Tons: 0	Selected in SRRE: Yes
		Owned or Operated: Yes
Jurisdiction Notes: AR 2008 - The transfer station and material recovery facility sited at the Edom Hill Landfill opened in November 2004 when the landfill closed. The Robert A. Nelson facility (RAN) is also a MRF located within the Western Riverside County unincorporated area as well as the CR&R facility located in Perris.		
7010-FR-LAN (Landfill)		
Current Status: SO - Selected and Ongoing	Program Start Year: 1991	Existed before 1990: No
	Report Year Diversion Tons: 0	Selected in SRRE: Yes
		Owned or Operated: Yes
Jurisdiction Notes: AR 2008 - The RCWMD continues to source separate tires, electronic waste and metallic discards at its landfills for recycling in increasing amounts. Hazardous wastes are removed and shipped for recycling or incineration before metallic waste is recovered. Suspected businesses who attempt to dispose hazardous waste or untreated medical waste at the landfills continue to be referred from Loadcheck Program inspection staff to the County District Attorney's office for follow-up.		
7020-FR-TST (Transfer Station)		
Current Status: SO - Selected and Ongoing	Program Start Year: 1994	Existed before 1990: Yes
	Report Year Diversion Tons: 0	Selected in SRRE: Yes
		Owned or Operated: No
Jurisdiction Notes: AR 2008 - The Anza, Idyllwild, Coachella, Moreno Valley, Perris, Pinion Flats, Edom Hill and Robert A. Nelson transfer stations continue to receive recyclable materials and to serve as solid waste transfer stations. Antifreeze, Batteries, Used Oil and Paint (ABOP) collection began at the Edom Hill Transfer Station and the Coachella Valley Transfer Station in 2008.		
7030-FR-CMF (Composting Facility)		
Current Status: SO - Selected and Ongoing	Program Start Year: 1991	Existed before 1990: No
	Report Year Diversion Tons: 0	Selected in SRRE: Yes

Annual Report Summary: Riverside-Unincorporated (2008)

		Owned or Operated: No
Jurisdiction Notes: AR 2008 - There are still two active and permitted green waste composting facilities located in Riverside County: California Biomass and Coachella Valley Compost Facility. Synagro Regional Composting Facility was the only sludge/biosolids composting facility located and operating in the County. However, Synagro closed in December 2008. Because of the impending closure of Synagro and the closure of Nursery Products (San Bernardino County), both of which were outlets for Eastern Municipal Water District (EMWD), sludge/biosolids were taken to Otay Landfill (San Diego County). This was discovered in 2007. As of 2008 material continued to be sent to Otay landfill from EMWD.		
7040-FR-ADC (Alternative Daily Cover)		
Current Status: SO - Selected and Ongoing	Program Start Year: 1995	Existed before 1990: No
	Report Year Diversion Tons: 36013	Selected in SRRE: Yes
		Owned or Operated: Yes
Jurisdiction Notes: AR 2008 - The RCWMD continues to use ADC at its landfills (36,013 tons Riverside Unincorporated). The use of curbside greenwaste as ADC is valuable in that most of the curbside green materials collected are unsuitable for compost or use as mulch due to high contamination. Use of green materials as ADC also helps recover landfill space as it breaks down compared with soil as cover. In addition to green material ADC the RCWMD has also utilized tarps for the last decade. To recover cost for valuable landfill space and to stimulate green material recycling, the RCWMD received approval from the County Board of Supervisors to charge \$10/ton for ADC brought into the landfill system. This fee took effect July 1, 2009.		
8000-TR-WTE (Waste To Energy)		
Current Status: DE - Dropped in an earlier year	Program Start Year: 1997	Existed before 1990: No
	Report Year Diversion Tons: 0	Selected in SRRE: Yes
		Owned or Operated: No
Jurisdiction Notes: AR 2008 - Dropped in an earlier year.		
8010-TR-BIO (Biomass)		
Current Status: SO - Selected and Ongoing	Program Start Year: 1991	Existed before 1990: Yes
	Report Year Diversion Tons: 116374	Selected in SRRE: Yes
		Owned or Operated: No
Jurisdiction Notes: AR 2008 - The County and its cities diverted 116,374.28 tons tons of wood waste to Colmac Energy Inc., a biomass facility located in the Coachella Valley. While jurisdictions are no longer able to apply for Biomass Diversion Credit, the diversion of this valuable material away from landfilling to Colmac still a viable diversion program.		
9000-HH-PMF (Permanent Facility)		
Current Status: SO - Selected and Ongoing	Program Start Year: 1995	Existed before 1990: No
	Report Year Diversion Tons: 257	Selected in SRRE: Yes
		Owned or Operated: Yes

Annual Report Summary: Riverside-Unincorporated (2008)**Jurisdiction Notes:**

AR 2008 - The RCWMD HHW Program continued its partnership with the City of Lake Elsinore to operate its Permanent HHW Collection Facility (PHHWCF) for all County residents. The Pedley facility was the second PHHWCF to open in the County. This facility was closed September 2008 and replaced by the Agua Mansa PHHWCF. A PHHWCF in Palm Springs was designed and construction began during 2008. The Agua Mansa and Palm Springs PHHWCFs were built utilizing some grant funds awarded the RCWMD by CIWMB. Agua Mansa opened in October of 2008 and Palm Springs opened in July 2009. Along with the construction of these two new facilities, the grant also provided funding for the RCWMD to improve the Lake Elsinore site allowing for better throughput for residents and expansion of the site to collect e-waste. Collectively, these facilities served 5,248 participants and collected 356,721 lbs (178 tons) of waste in 2008. The facility details have been reported through the CIWMB Form 303. Two Permanent ABOPs continue to operate every Saturday except holiday weekends [47 open days, 4,067 participants were served, and 157,409 lbs (79 tons) of waste was collected in 2008]. With the opening of the Palm Springs PHHWCF, the Palm Springs ABOP will close. This new regional facility provides the Coachella Valley residents with an expanded service year round. In the past, the Department did not host any Temporary HHW events during the summer months. The California State Association of Counties Challenge Awards honored Riverside County with Honorable Mention for the Household Hazardous Waste Program Cost Savings Restructure. The RCWMD is establishing a network of regional Permanent Household Hazardous Waste Collection Facilities to ensure the proper collection and cost effective disposal of products such as paints, solvents, chemicals, electronic waste, etc. Previously, these products could be delivered by residents only during temporary collection events. Many residents expressed interest in the ability to dispose of such products at regular fixed sites instead of holding onto waste until a collection event was scheduled. The new permanent facilities increase convenience for residents, further ensuring the proper disposal of hazardous waste and helping to meet the requirements of the California Integrated Waste Management Board and the U.S. Environmental Protection Agency National Pollutant Discharge Elimination System (NPDES).

9010-HH-MPC (Mobile or Periodic Collection)

Current Status: SO - Selected and Ongoing	Program Start Year: 1990	Existed before 1990: Yes
	Report Year Diversion Tons: 388	Selected in SRRE: Yes
		Owned or Operated: Yes

Jurisdiction Notes:

AR 2008 - The RCWMD continues to operate a schedule of Household Hazardous Waste Events. These events were operated successfully throughout the County [61 events-days serving 12,576 participants and collecting 775,405 pounds of waste (388 tons)]. The program continued collection of residential sharps. Conditionally Exempt Small Quantity Generator Waste was collected directly by the program's hazardous waste contractor.

9020-HH-CSC (Curbside Collection)

Current Status: SO - Selected and Ongoing	Program Start Year: 1992	Existed before 1990: No
	Report Year Diversion Tons: 4.9	Selected in SRRE: Yes
		Owned or Operated: No

Jurisdiction Notes:

AR 2008 - Used Motor Oil is collected curbside in most solid waste franchise hauler areas. 1155.02 gallons were collected in the unincorporated areas by franchised hauler in 2008. (4.9 tons)

9040-HH-EDP (Education Programs)

Current Status: SO - Selected and Ongoing	Program Start Year: 1993	Existed before 1990: No
	Report Year Diversion Tons: 0	Selected in SRRE: Yes
		Owned or Operated: Yes

Jurisdiction Notes:

AR 2008 - All HHW Collection Events are promoted through newspaper ads prior to each event, event schedule flyers, the RCWMD HHW website and hotline, Spanish radio in Coachella, community events and school presentations and direct mail to over 700,000 households twice each year. This regional City and County program is also promoted by the cities to their residents.

9045-HH-EWA (Electronic Waste)

Current Status: SO - Selected and Ongoing	Program Start Year: 2001	Existed before 1990: No
	Report Year Diversion Tons: 347	Selected in SRRE: No

		Owned or Operated: Yes
Jurisdiction Notes: AR 2008 - Diversion of CRT electronic wastes began in March 2001. When it was determined the disposal cost could be lowered by RCWMD staff doing the demanufacturing in 2002, the RCWMD internalized it. In 2008, 347 tons of CRTs were collected and recycled at County landfills. In April 2007, the RCWMD took over collection and management of the CRTs and E-Waste at the HHW events and facilities from its contractor. These are taken to County landfills and dismantled and recycled on-site. In the prior year, the HHW Contractor removed and recycled the material.
