Disposal Rate Calculation

Definition of Terms

Reporting-Year Disposal Amount (tons) – defaults to the total tonnage disposed in the Reporting-Year by a jurisdiction as reported to the Disposal Reporting System (DRS). Disposal contains all jurisdiction waste that was disposed in CA landfills, transformation facilities, and exported out-of-state. Any changes will require you submit a Reporting Year Disposal Modification Certification Sheet (PDF). See User's Guide or contact LAMD representative if uncertain.

Disposal Reduction Credits - the EAR calculator will subtract these credits from your requested total in the Reporting-Year Disposal Amount field. Requesting credits will require you submit a Reporting Year Disposal Modification Certification Sheet (PDF). Descriptions of these credits can be found on that sheet. See EAR User's Guide or contact LAMD representative if uncertain.

Reporting-Year Transformation Waste (tons) – defaults to the total tonnage of waste sent in the Reporting-Year by a jurisdiction to a CalRecycle-permitted transformation facility as reported to the Disposal Reporting System (DRS). Transformation is factored into the Per Capita rate only, and is not deductible. To eliminate the Per Capita credit for transformation tonnage, change the Reporting-Year Transformation Waste (tons) number to 0.00.

Reporting-Year Population – January 1st estimate of the number of inhabitants occupying a jurisdiction in the Reporting-Year as prepared by the California Department of Finance (DOF)

Reporting-Year Employment – the estimate of the annual average number of employees by jurisdiction in the Reporting-Year as prepared by the California Employment Development Department (EDD).

Additional Definitions - for additional definitions and/or acronym descriptions, see the LGCentral Glossary.

Calculation Factors

If any boxes are checked, please complete, and sign the [Reporting Year Disposal Modification Certification Sheet](#) and mail, e-mail or FAX to CalRecycle within 7 business days of submitting your report. If you are only claiming report-year disposal deductions for waste transported to a certified Transformation facility, you do not need to fill out the certification request.

Although you will be able to submit your electronic Annual Report without completing this sheet, your Annual Report will not be deemed complete until this sheet is completed and received by CalRecycle. Contact your [LAMD representative](#) for details.

AR 2014 - Program is continuing. Recycling collection services are still offered within the franchise agreements in most service areas of the County. 1,917 tons of paper, 102 tons of greenwaste, 10 tons of organic material and 585 tons of other material were collected from commercial sources. 402 tons of paper, 6 tons of metals, 1,708 tons of greenwaste, 10 tons of organics, 21 tons of white goods, 3,696 tons of construction, and 25 tons of other materials collected from industrial sources.

AB 341 Mandatory Commercial Recycling (MCR) regulations, RCDWR has updated our website, sent a press release through our County Executive Office and provided information on MCR regulation at community events. The total visits to the Department website was 97,660. There were 1,587 and 790 page views for the Public Notices page and business recycling page, respectively. In addition, the Department worked with the County's Building and Safety group to have a MCR message added to the electronic business license renewal notification. RCDWR has also hired an intern to help with MCR notification, she has been sending e-mails to businesses on our list that are subject to the regulations, but not recycling through a hauler. This has generated calls from businesses that are self-hauling their recyclables or once informed, have been able to contract with their waste hauler for recycling services. According to the waste haulers there are 5,193 total businesses within Riverside County and 1,210 that are subject to the MCR regulations.
